

Enfocus and Xitron Provide Powerful PDF Capabilities to XiFlow RIP Manager Customers

New Xitron XiFlow 2.5 Utilizes Enfocus PDF Library Technology

Plus New XiFlow Customers Receive Enfocus Instant PDF Software Free with Purchase

Ann Arbor, MI & San Mateo, CA – August 4, 2005 – Enfocus Software, the world leader in PDF quality management solutions for the graphic arts industry; and Xitron, the prepress industry's leading independent developer and integrator of Raster Image Processors, RIP management software and workflow solutions, today announce they have partnered to provide XiFlow 2.5 customers with powerful PDF capabilities.

New XiFlow 2.5, now shipping, incorporates Enfocus' PDF Library technology enabling powerful PDF tools and options. Utilizing the Enfocus PitStop Library, XiFlow 2.5 users have access to the most sophisticated preflight, editing and certification capabilities for PDF documents. The technology platform also supports Enfocus Certified PDF workflows used for optimal PDF quality assurance and streamlining print production.

In addition, the two companies announce a special promotional program: Beginning August 1 and through December 31, 2005, Xitron customers who purchase new XiFlow 2.5 will receive a free copy of Enfocus' Instant PDF software, a \$199 value. Xitron customers can either utilize Instant PDF themselves, or give it to a customer, facilitating the creation of quality PDF files that will travel through a PDF workflow without problems.

“At Xitron we're about productive, flexible workflow solutions. Not only is Enfocus our chosen preflight technology partner in our workflow offerings, we're encouraging our customers to bring that power and sophistication to their own customers, with innovative Instant PDF technology. Instant PDF is a great tool for easily creating properly prepared PDFs that are ready for print production,” says R. Patrick French, Vice President, Sales and Marketing of Xitron.

Patrick Van Dam, Executive Vice President, Worldwide for Enfocus, says, “Xitron has proven itself a PDF player for the longterm. We're impressed by the company's track record, customer loyalty, and progressive, yet practical, thinking. We look forward to helping Xitron's customers become more productive with better PDF workflows.”

XiFlow

XiFlow was developed by Xitron to serve as a RIP manager for Harlequin RIPs including those marketed by ABDick, Agfa, Compose, ECRM, Esko-Graphics, Highwater, Mitsubishi, Presstek, and Screen, as well as Xitron's own Navigator products. Moving workflow control from the RIP

platform to the pre-press operator workstation, XiFlow allows creation of multiple job streams for all job types frequently handled by a prepress department.

Enfocus Instant PDF

Enfocus Instant PDF closes the loop from PDF creation to accurate final output and jump-starts a Certified PDF® workflow. This plug-in for Adobe® Acrobat® is the easiest way to make flawless PDFs from within any application. Built-in Certified PDF technology ensures quality and keeps users connected to up-to-date specifications via CertifiedPDF.net software.

About Xitron

Xitron manufactures productive, flexible workflow systems and interfaces designed to drive the pre-press industry's most popular new output devices as well as its legacy systems, prolonging their life and protecting our customers' investments. Xitron's Navigator RIP, Raster Blaster TIFF Catcher, and Xenith Workflow solutions are recognized as pre-press standards. Built around core technology from Global Graphics and Adobe Systems, Xitron engineers continue to develop stable, yet flexible solutions for the graphic arts market, driving over 150 different models of imagesetters, proofers, platesetters, and digital presses. For more information about Xitron, our products, OEM opportunities, or becoming a Xitron dealer, visit us at www.xitron.com.

About Enfocus Software

Enfocus Software is internationally recognized as the primary source of essential solutions for reliable, accurate, inter-company PDF file exchange and precise PDF output between designers, publishers and printers. Enfocus tools help move you through the entire PDF workflow, even when other PDF products reach their limit, going beyond preflight to deliver unmatched PDF creation, auto-correction, advanced editing and automation. Major suppliers such as Agfa, Artwork Systems, Creo, EFI (Electronics for Imaging), Fujifilm, Global Graphics, Heidelberg, Xerox, Screen Europe, Xitron and Vio Worldwide have integrated Enfocus technologies into their own PDF workflow system offerings. For more information, visit www.enfocus.com.

Enfocus Software is a wholly owned subsidiary of Artwork Systems Group.
